**Local Government Elections****October 17<sup>th</sup> 2009**

We write this note to seek your support and encourage local electors to vote in the Local Government elections on either Oct. 17<sup>th</sup> or at the designated times and places prior to that date. Details of early and postal voting can be seen in the Hyden Library window.

Currently the Hyden-Karlgarin Region has 4 Councillors in a Council of 9. There are 7 candidates in this election to fill 6 vacancies.

If the electors in the Hyden – Karlgarin Region are complacent in voting, (it is not compulsory) then there is a risk that our representation will be reduced to 3.

The voting system used for Local Government elections is different to that used in Federal and State elections.

Before you cast your vote, it is very important to have an understanding of the voting system used which is 'First Past the Post' and not 'Preferential'. It is very simple:

In this election, you only vote for up to 6 candidates. It is a **valid vote if you vote for 6 or less, and an invalid vote if you vote for 7.**

Each X marked next to a candidate is counted as one vote for that candidate, and each vote is equal.

There is no order of preference.

When the votes are added, obviously the 6 with the most votes are elected.

If your first preference is to see the local candidates elected, and you don't have a strong opinion on the order of the other candidates, or you don't know some of the other candidates, the best option is to vote only for your preferred candidates and leave the rest blank.

If you do vote for 6 candidates, it may be that one of the votes you give to the other 4 candidates might be the one vote that elects that candidate ahead of one of your local candidates.

Read the Ballot Paper carefully and vote on or before  
Oct.17<sup>th</sup>.
